EXPERIENCE

Frontend Developer

Independent Freelancer | December 2020 - July 2021

- Developed Jamstack websites for several clients.
- Actively engaged with clients about specifications and designs.
- Delivered quality projects with a focus on performance and mobile responsiveness.
- Used: React, GatsbyJS, 11ty.

Frontend Developer

BrightScout, US | August 2021 - September 2021 (Contract)

- Worked as a frontend developer as part of a design team to build a GatsbyJS marketing website for a client.
- Used: React, GatsbyJS, Typescript, Tailwind CSS.

Frontend Developer

Audal Labs, Australia | October 2021 - Current

- Worked in a team of developers on several GatsbyJS projects that integrated with headless WordPress.
- Built a Babel Plugin that reduced bundle size by 20%.
- Used: React, GatsbyJS, Typescript, Chakra UI.

TECHNICAL SKILLS

HTML & CSS, Javascript, Typescript, React, GatsbyJS, NextJS, GraphQL, Eleventy, Styled-Components, Tailwind CSS. Chakra UI.

TOOLS AND TECHNOLOGIES

Git, NPM, Slack, Github, Figma, Sanity CMS, Prismic CMS, Netlify CMS, WordPress.

PERSONAL PROJECTS

Gatsby Starter Glass - gatsbyglass.netlify.app

- Built a blog starter with GatsbyJS integrated with Netlify CMS to allow non-technical users to edit site content.
- I optimized the site to score 100% in Best Practices & SEO, 97% in Accessibility, and 93% Performance in Lighthouse site audit.
- I made sure the site is fast and responsive on mobile.
- Used: React, GatsbyJS, Styled-components, Netlify CMS.

Blaque Photography - blaquephotography.vercel.app

- Built a portfolio website for a fictitious photographer integrated with Prismic CMS, to allow a non-technical site owner to edit site content.
- Used: React, GatsbyJS, Styled-components, Prismic CMS, Framer Motion.
